

**Trinity Oaks C of E Primary School is a distinctively Christian school which also reflects the character of the community it serves.**

**We aim to provide the highest possible quality of education supported by a caring Christian ethos.**

**As a school community we have reflected on our long term aspirations for the children in our care.**

- We want our children to grow into confident, well rounded individuals who believe in themselves and can achieve in different ways.
- We want them to be excited by their learning, embrace knowledge, be inquisitive and open to new ideas.
- They should feel able to take risks in their learning, be resilient and know how to learn from their mistakes.
- They will gain independence and develop the academic and social skills to be successful in life.
- They will know how to communicate effectively, cooperate and work alongside others.
- They will grow spiritually and culturally, learning to understand the value of diversity and developing empathy and respect for others.

**We thought about what we wanted our school to offer pupils**

- Fun, enjoyment and laughter.
- A safe, well cared for, modern environment with new technology chosen to support learning.
- Energy, challenge and the buzz of purposeful activity. Opportunities for children to follow their interests, try new things, be active and creative inside and outside.
- High quality direct teaching and a staff team who are strong role models, have high expectations and are aspirational for the children.
- An individual approach to finding each child's strengths and help and support with the things they find things hard.
- Opportunities to develop friendships, be part of a team, show leadership and make a contribution to school life.
- Active involvement of parents, church and local community in the life of the school.
